## B. Long Answer Type Questions

### Question 1:

How is the cyclic movement of rain brought out in the poem "The Voice of the Rain"? What points of similarity do you notice between rain and music?

### Answer:

The rain calls itself the poem of earth. It is everlasting and perpetual. It is something that cannot be touched. It originates from the land and the deep sea. Then it rises upward to heaven where it changes its form into a cloud, yet remains the same in quality. From the sky it pours down on earth to wash the dry tiny particles and dust layers of the earth. The rain helps the unborn seeds to sprout. These seeds lay hidden and unborn under the layers of earth. Rain gives back life to its origin making it pure and beautiful. Rain and music are both beautiful and life-giving. They are eternal sources of joy and go on perpetually. They inspire even dormant objects and persons with life and activity.
