EXTRA QUESTIONS

MCQ QUESTIONS

escape being noticed by any predator.

Question 3.

How is the tree transformed during the bird's visit?

Answer:

After the goldfinch arrives on the tree, the silent and still Laburnum tree suddenly starts trembling and moving. The whole tree comes to life as the chicks of the goldfinch make a lot of noise as they chitter and trill on seeing their mother.

Question 4.

To what is the movement of the goldfinch compared? What is the basis for the comparison?

Answer:

The movement of the goldfinch is compared to that of a lizard. The basis of the comparison is the sleek, alert and sudden movements of a lizard. The goldfinch makes similar kind of movements when it arrives on the Laburnum tree to avoid being noticed by any predator.

Question 5.

'Then sleek as a lizard and alert and abrupt, She enters the thickness'. Explain the given line.

Answer:

The lizard is a quick moving animal. It is also very alert and its movements are sudden. In the given line, the arrival of the goldfinch on the Laburnum tree is described. The poet describes its movements as alert and sudden just like that of a lizard. This is done to avoid getting the attention of the predators.

Question 6.

What is the engine of the machine? What is its fuel?

Answer:

The goldfinch has been called the engine of her family. Just as the engine starts up the machine, the goldfinch's arrival in the nest has suddenly started the machine i.e. the young ones in the nest have started making noise. The fuel of the engine is the food that the goldfinch brings for her chicks.

Question 7.

How does the Laburnum ensure security for the nestlings?

MCQ QUESTIONS

tree, it falls silent. The tree was noisy and lively when the goldfinch came to feed its chicks, but it reverts to its earlier self after its departure from the tree.

The Laburnum Top Extra Questions and Answers Long Answer Type

Question 1.

The arrival of the goldfinch on the Laburnum top brings about a change in the poem. How do you interpret this change? Is change good or bad in life?

Answer:

At the start of the poem, the top of the Laburnum tree in the poem is silent and still. There is hardly any activity on it as the sunlight falls on it on a September afternoon. However, with the arrival of the goldfinch, it suddenly becomes a place of feverish activity. The silence of the place is broken by the twittering and chirruping of the chicks and the goldfinch.

I think that the change brought about by the arrival of the goldfinch on the Laburnum top is good, as it breaks the monotony. The tree becomes alive and lively with the movement of the goldfinch and the twitterings and chirrupings of the chicks.

Change can be good or bad in life depending on a situation. However, the fact is that change is the only constant in life. So, even if a change is bad, we have to accept it and move on in life.

Question 2.

What values do you learn from the goldfinch in the poem 'The 'Laburnum Top'?

Answer:

The goldfinch has its nest on the top of the Laburnum tree in the poem, 'The Laburnum Top'. Her chicks stay in the nest while she (the mother goldfinch) keeps going out at regular intervals to get food to feed her chicks. This shows her caring nature and highlights the values of motherly care and affection of a mother towards her offspring.

The other aspect of the goldfinch that is captured in the poem is its movement. She arrives at the Laburnum top in a sudden manner and is very much alert to her surroundings. The poet has compared her
